

# SACRAMENTO RIVER CATS

## Game Day Information

River Cats Media Relations • 400 Ballpark Drive • West Sacramento, CA 95691 • P: (916) 376-4751 • F: (916) 376-4710 • @RiverCats

### Friday, August 3

AutoZone Park

Memphis, TN • 5:05 p.m. (PT)

Game 111 • Road Game 55

### SACRAMENTO RIVER CATS (45-65) 4th Pacific Northern

- vs -

### MEMPHIS REDBIRDS (69-41) 1st American Southern

River Cats: RHP Jordan Johnson (0-4, 7.29) • Redbirds: LHP Austin Warner (0-0, 4.50)

**Last Night's Game:** The River Cats dropped last night's game to the Redbirds 4-0, struggling to get anything going against starter Jake Woodford. Sacramento managed just three hits on the night, a single apiece from **OF Chris Shaw**, **C Trevor Brown**, and **RHP Tyler Herb**. Apart from his second career hit in the fifth inning, Herb tossed six innings of two-run ball with two walks and four strikeouts. Thursday night was the first time the River Cats did not record an extra-base hit since July 3 against Fresno. They also drew just one walk on the night for an exceptionally stagnant offensive performance. **RHP Roberto Gomez** made his return to the River Cats bullpen with a perfect seventh inning.

**Tonight's Starter:** **RHP Jordan Johnson (0-4, 7.29)** will take the ball for the River Cats as they go for their first series victory since they beat Fresno in a series (3-2) from June 29 - July 3. Johnson is also looking for his first Triple-A win since he joined the River Cats on July 3. He is coming off his best start since his promotion with a five-inning, two-hit performance against the Iowa Cubs on July 28. Unfortunately the right-hander did not get any run support to come away with a tough-luck loss. Walks have been the big issue for Johnson, who has walked 8.6 batters per nine in 21.0 innings. While he is allowing a .280 opponents batting average, that average is just .161 against left-handed hitters.

**New River Cat:** The San Francisco Giants have agreed to terms on a minor league contract with **OF Cesar Puello**, who was recently released from the Reno Aces roster by the Arizona Diamondbacks. Puello appeared in 73 games with the Aces this season and hit .317 with six home runs and 33 RBI. The 27-year old outfielder was originally signed as an amateur free agent by the New York Mets in 2007, and made his Major League debut as a member of the Los Angeles Angels in 2017. He and fellow River Cats **OF Peter Bourjos** were teammates briefly with the Tampa Bay Rays last season.

**Bet on Black:** Former River Cat and current San Francisco Giants flame-thrower **RHP Ray Black** has been on quite a tear over the last few weeks. Since his Giants debut in which he allowed three earned runs, he has been literally unhittable. In 9.1 innings since his first appearance, Black has allowed zero runs, zero hits, three walks, and has struck out 13 batters. His ERA with the Giants is now 2.79 for the season.

**Series Play in 2018:** The River Cats have an opportunity to win just their seventh series of the season with a victory on Friday night against Memphis. Sacramento is 6-15-6 in series play this year overall. They are better on the road, going 4-5-4, versus at home where they are just 2-10-2. The Memphis Redbirds, on the other hand, are 16-4-7 in series play in 2018.

**Careful of the Bottom:** Sacramento is having an especially rough season, approaching the worst record in Sacramento River Cats history (in 2002, their final record was 66-78 - .458). Since the River Cats first arrived in Sacramento, they have finished below .500 just four times.

**This Day in River Cats History: August 3, 2013:** **RHP Sonny Gray** earned his 10th win of the season in River Cats 5-3 win over the Round Rock Express...Gray is now tied with fellow teammates **Bruce Billings** and **Andrew Werner** and Nashville Sounds **Johnny Hellweg**, for most wins in the Pacific Coast League...River Cats righty **Kyler Newby** recorded his first save of the season.

## \*ADVANCED HITTING STATS GLOSSARY

### PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

### OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

### ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

### BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

### wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

### wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

### K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

## ADVANCED PITCHING STATS GLOSSARY\*

### TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

### AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

### BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

### LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

### FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

### K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

### xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
