

For Immediate Release:

ParkMobile Offers a Smarter Way to Park at Central New Mexico Community College

Students, faculty, and visitors to the campus will be able to easily pay for parking right from their mobile devices

Albuquerque, NM – January 14, 2019 – ParkMobile, the leading provider of smart parking and mobility solutions in the U.S., announced today the launch of its mobile payments solution at Central New Mexico Community College. Students, faculty, and visitors will be able to use the ParkMobile app to easily pay for parking at over 3500 spaces across the campus. ParkMobile is free to download and available for both [iPhone](#) and [Android](#) devices.

CNM also offers Event Parking at Main Campus SSC and SB lots for community members who attend events in this part of the city. Enter zone# 5917 for event parking at CNM.

ParkMobile is already widely available in the City of Albuquerque, so this expansion into Central Mexico Community College gives people more places where they can use the app in the local area. ParkMobile is also available in Santa Fe.

There will be new signage posted around the parking meters with information on how to pay for parking using the app. A user simply enters the zone number posted on the ParkMobile sign, chooses the duration, and touches the “start parking” button to initiate a session. ParkMobile will send alerts when the parking session is about to expire so that the user can extend time remotely, right from the app.

Beyond New Mexico, people can use the ParkMobile app in over 370 cities across the country including Washington, DC, Philadelphia, Miami, Dallas, and Atlanta. ParkMobile can also be used to make parking reservations at some of the top stadiums in the country for sporting events and concerts.

“We are always looking for innovative ways to improve the parking experience on campus,” says Nicholas Aragon Director of Parking at CNM. “The ParkMobile app gives people an easy way to pay so they can skip the meter and pay with their phone instead.”

“We are excited to expand ParkMobile’s service to New Mexico Community College,” says Jon Ziglar, CEO of ParkMobile. “We already have a large and growing base of users in the Albuquerque area and this gives people more smart parking options around the city.”

About ParkMobile

ParkMobile, LLC is the leading provider of smart parking and mobility solutions in North America, helping millions of people easily find and pay for parking on their mobile device. The company's technology is used in over 3,000 locations across the country, including 7 of the top 10 cities as well as college campuses, airports, and stadiums. People can use ParkMobile solutions to quickly pay for on- and off-street parking without having to use a meter or kiosk. Additionally, ParkMobile offers parking reservations at stadium venues for concerts and sporting events. Reservations are also available in metro area garages, allowing people to drive into the city without having to worry about finding parking. ParkMobile has been named to the Inc. 5000, Deloitte Fast 500, Entrepreneur360, and Atlanta Business Chronicle's Pacesetter list. Additionally, the company won 2018 Stevie Awards for Most Innovative Tech Company and Best Integrated Mobile Experience.
