Saturday, August 18

Isotopes Park

Albuquerque, NM • 5:35 p.m (PT)

Game 125 • Road Game 65

SACRAMENTO RIVER CATS (50-74) 4th Pacific Northern

- vs -

ALBUQUERQUE ISOTOPES (57-67) 4th Pacific Southern

River Cats: RHP Tyler Herb (1-6, 5.03) • Isotopes: LHP David Holmberg (5-7, 6.01)

Yesterday's Game: The River Cats took a 5-3 lead with four runs in the top of the seventh, but a five-spot put up by the Isotopes in the bottom half of the inning sealed the deal for Albuquerque. Sacramento would threaten in the ninth, but end up falling 8-7. **RHP Shaun Anderson** tossed his third quality start in his last four appearances, but settled for a no-decision in the loss. The right-hander did not issue a walk for this first time this year, and allowed three runs on six hits in six innings of work. **INF Miguel Gomez** lead the way with three hits, while **OF Orlando Calixte** knocked in three runs while going 2-for-3 with a double and a sac fly. Things fell apart for the bullpen in the seventh, when neither **LHP Marry Parra** or **RHP Derek Law** could escape the Isotopes' onslaught.

Tonight's Starter: **RHP Tyler Herb (1-6, 5.03)** takes the hill for Sacramento on Saturday, joining the group of River Cats' starters who have pitched better than their records indicate. Herb has put forth four straight quality starts for the River Cats, and has taken a loss in each of them. Over those four games, he is 0-4 with a 3.38 ERA with 21 strikeouts and six walks. He has received an average of just 1.0 runs/game of support in those games. The first inning has been Herb's downfall this season, as the righty has allowed 10 first inning runs in nine games, compared to 17 runs total in all other innings combined in those nine games. He has also been tougher against right-hander hitters this season, holding them to a batting average that is a full 100 points lower than that of left-handed hitters (.271 compared to .371).

Kelby Tomlinson: Singles Machine: **INF Kelby Tomlinson** had a day off on Thursday, but picked up where he left off on Friday by extending his hitting streak to 17 games. His streak began on July 3, and the utility infielder has gone 25-for-61 (.409) since that date. Amazingly, all 25 of his hits during his streak have been singles. Tomlinson is hitting .295 overall with a .673 OPS in 35 games with Sacramento. He has also logged 53 games with San Francisco this season and has hit to the tune of a .226 average with a .574 OPS.

Power Outage: The River Cats have not hit a home run since August 9 and have hit just four in the month of August so far. While they have been without their two biggest power threats, **OF Mac Williamson** (13 home runs) and **OF Chris Shaw** (22 home runs), the rest of the lineup has gone nearly silent in terms of the longball. Sacramento is now tied for the sixth fewest home runs in the Pacific Coast League with 106 total dingers.

Osich Picking Up Steam: On July 25 against the Omaha Storm Chasers, **LHP Josh Osich** made a spot start in a bullpen-game because scheduled starter **RHP Chris Stratton** was placed on the ML Taxi Squad. The lefty tossed two innings in that night and allowed one run. Beginning with that start, Osich has allowed just three runs over his last 10.1 innings for a 2.61 ERA with eight strikeouts.

This Day in River Cats History: August 18, 2008: The River Cats crushed the Tacoma Rainiers 7-1 for their 78th victory of the season. Leadoff hitter **OF Chris Denorfia** led the way going 2-for-4 with two doubles and two RBI while **OF Aaron Cunningham** finished 2-for-3 with two runs and two RBI himself. Cunningham also went deep for his third home run of the game. **LHP Dana Eveland** went eight innings of one-run ball and struck out eight.

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
