Metairie, LA • 10:00 a.m. (PT)

Game 72 • Road Game 36

SACRAMENTO RIVER CATS (33-38) 4th Pacific Northern

- vs -

NEW ORLEANS BABY CAKES (34-36) 2nd American Southern

River Cats: RHP Casey Kelly (6-5, 4.77) • Baby Cakes: RHP Pablo Lopez (2-3, 1.15)

Yesterday's Game: The River Cats fell for the third consecutive game to the New Orleans Baby Cakes by the final score of 7-4 on Monday evening. Sacramento jumped out to a 2-0 lead in the first inning thanks to a two-run home run by **OF Austin Slater**. The River Cats piled up four hits in the first inning last night after recording just four hits all game on Sunday. **RHP Taylor Hill** shut out the Baby Cakes through the first three innings, but then surrendered three earned runs in the fourth and fifth innings. Hill finished with one strikeout in 4.2 innings pitched. **INF Orlando Calixte** cut into the deficit with a two-run bloop single into left field in the sixth inning, but New Orleans' lead was too much to overcome and Sacramento eventually dropped the third game of this series 7-4.

Today's Starter: **RHP Casey Kelly** is coming off another tremendous start against Round Rock on June 14. Kelly struck out eight batters and allowed just one earned run in seven innings pitched, but earned a no decision. Kelly has thrown at least six innings in each of his last five starts and has a 1.59 ERA with 27 strikeouts in that span. He has also lowered his ERA from 6.26 down to 4.77 during that time. Kelly currently leads the River Cats pitching staff in wins (6), ERA (4.77), strikeouts (59), and WHIP (1.34).

Hitting Breeds Hitting: After a Sunday game where the River Cats only mustered four hits, Sacramento jumped out early and racked up 12 hits last night, four of which came in the first inning. Five River Cats hitters recorded at least two hits in last night's 7-4 loss, and every batter in the starting lineup except **C Ryan Hanigan** recorded at least one hit.

Errors: After the River Cats recorded three errors in the field last night, they have now played 18 games where they have at least two errors. Sacramento now has 72 errors this season, which is the most in the Pacific Coast League.

Back on Track: After a brief slump, Austin Slater recorded a multi-hit game last night going 2-for-4 with his 24th double of the season and just his fifth home run. It was Slater's first home run since May 30 against El Paso and his first multi-hit game since June 9 at home against Colorado Springs.

This Day in River Cats History: June 19, 2009: The River Cats collected seven extra-base hits - five doubles, a triple, and a home run - en route to a 10-5 stomping of the Salt Lake Bees at Raley Field...**DH Aaron Cunningham** was 3-for-5 in the game with a triple, a home run, four RBI and two runs scored...the win went to Sacramento's **RHP Chad Reineke**, who went six strong, allowing two runs on four hits while striking out seven.

ADVANCED HITTING STATS GLOSSARY*

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
