

GAME PLAN

- ★ Reading incentive program geared toward students in grades K-5.
- ★ Program consists of four two-week segments (8 weeks total) beginning in late January and wrapping up in late March.
- ★ Each two-week segment corresponds to one base (first, second, third, & home).
- ★ Teachers set their own goals for students to go along with each segment or base. (For example: number of minutes read, number of books read, number of pages read, etc.)
- ★ Each school that agrees to participate in the program selects a game in April, May, or early June (based on availability) as their school's Family Night at Fox Cities Stadium. Game dates will be reserved on a first come, first serve basis.
- ★ When students reach a base, they are awarded with an incentive prize compliments of the Wisconsin Timber Rattlers. If a student reaches all four bases, they hit a home run and are awarded with a free ticket and a hot dog & soda voucher for their school's Family Night at the ballpark.

GREETINGS!

The baseball off-season is in full swing, which means we are gearing up to roll out Fang's Reading Club! The Wisconsin Timber Rattlers want to get area kids excited about reading by extending an invitation to your school to become a part of this "Fang-tastic" program.

While sports such as baseball can add to a child's physical skills, it is reading that develops those intellectual skills necessary for learning. The Wisconsin Timber Rattlers take great pride in working toward this cause. After all, it is the youth that will be developing our community for years to come.

We look forward to working with you and your students this coming year!

Yours in Baseball,

FANG
