Greater Nevada Field
 Reno, NV • 7:05 p.m (PT)
 Game 87 • Road Game 41

SACRAMENTO RIVER CATS (38-48) 4th Pacific Northern

- vs -

RENO ACES (39-47) 3rd Pacific Northern

River Cats: LHP Daniel Camarena (0-3, 2.48) • Aces: RHP Jake Buchanan (5-7, 5.79)

Yesterday's Game: In the River Cats first game played this season at Greater Nevada Field, Sacramento came up short in a 10-5 loss to the Reno Aces. The River Cats jumped out to an early 2-0 lead after a two-run homer run by **OF Chris Shaw**, his 17th of the season. The Aces would put up six runs in the third inning after a tough start from **LHP Matt Gage**, who allowed seven earned runs on ten hits in 2.2 innings pitched. The River Cats would remain hitless until the eighth inning when **OF Gregor Blanco** crushed his second home run since joining Sacramento. Ultimately, the Aces would go on to win 10-5 behind strong pitching and take game one of this five-game series.

Today's Starter: LHP Daniel Camarena is set to make his seventh start with Sacramento and is coming off his third consecutive loss after a five-inning performance in which he allowed just one earned run against Albuquerque on June 28. Despite not having a win under his belt this season, Camarena holds a 2.48 ERA and 29 strikeouts in 36.1 innings pitched. In his first four starts he struck out 19 batters and allowed just two earned runs. In his three starts since then he has ten strikeouts and has allowed eight earned runs. Camarena looks to end the losing streak and earn his first win of the season tonight in Reno.

250: LHP Steven Okert appeared in his 250th game last night in Reno striking out two batters in a 1-2-3 eighth inning against the Aces. In 250 games played, Okert has a 19-11 record with a 3.20 ERA to go along with 353 strikeouts in 307 innings pitched.

100: In the ninth inning last night, Shaw doubled down the left-field line for his second hit of the night and the 100th double of his career. Shaw has reached 100 after smacking eleven in 2015, 38 in 2016, 35 in 2017, and so far with 16 this season. Shaw is also just one home run away from tying his home run count from last season with Sacramento at 18.

Road Rogers: RHP Tyler Rogers continued his dominance on the road this season with 2.1 hitless innings last night against the Aces. In 21.1 innings pitched on the road this season, Rogers has allowed just three earned runs and posts an impressive 1.27 ERA.

This Day in River Cats History: July 5, 2006: Behind a 3-for-4 (1 RBI) by INF Andrew Beattie, the River Cats were able to top the Fresno Grizzlies 11-7 at Chukchansi Park...RHP Jason Windsor picked up the win, allowing 5 runs on 11 hits while striking out 6 in 6.1 innings of work...current River Cat INF Kevin Frandsen went 2-for-5 with 2 runs scored for Fresno...OF Hiram Bocachica and INF Mike Rouse each drove in 4 runs, with Bocachica supplying the big blow with a 3-run home run.

ADVANCED HITTING STATS GLOSSARY*

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
