Thursday, August 23

Raley Field

West Sacramento, CA • 7:05 p.m. (PT)

Game 129 • Home Game 63

FRESNO GRIZZLIES (74-54) 1st Pacific Northern

- vs -

SACRAMENTO RIVER CATS (50-78) 4th Pacific Northern

Grizzlies: RHP Brady Rodgers (1-3, 7.71) • River Cats: RHP Tyler Herb (1-7, 5.13)

Yesterday's Game: The River Cats saw a game slip away from them despite having a four-run lead entering the ninth inning. A grand slam from OF Kyle Tucker, which was his second home run of the game, tied the game before the Grizzlies put two more runs up on the board to make it a 10-8 game — the eventual final score. With eight runs, though, Sacramento saw a power surge they had been without for a while as **OF Chris Shaw** returned to the lineup to launch his 23rd homer of the year. The River Cats also had **OF Gregor Blanco** and **INF Miguel Gomez** clear the fence.

Today's Starter: RHP Tyler Herb gets the ball for Sacramento in Thursday night's series finale, which will wrap up all 16 games with the rival Fresno Grizzlies this season. It will be Herb's first chance to face the Grizzlies in 2018. He has a streak going pitching exactly six innings in five consecutive outings. During this run, Herb has a 3.90 ERA with 37 hits allowed to just seven walks in 30 innings to go along with 24 strikeouts. He'll be breaking another streak Thursday night, as he had previously pitched four straight games on the road.

(Shaw)esome Return: In his first game since returning from the disabled list, **OF Chris Shaw** cleared the fence for the 23rd time this season. He's trying to become the first River Cats player to club 25 dingers in season since Adam Duvall finished the 2015 campaign with 26. Shaw missed six games in his brief DL stint.

Gomez Grand-Slammed: Kyle Tucker's bases-clearing bomb in the ninth inning of last night's game was remarkably the third granny allowed by **RHP Roberto Gomez** in his career. All totaled, Gomez has faced 20 batters with the bases juiced and has allowed six hits, 20 earned runs, and walked four. Just last season, Gomez found himself in a similar situation where he was brought in to the ballgame with the bases loaded and served up a grand slam to the first batter he faced.

Free Passes: The nine walks issued by Sacramento's pitching staff in Wednesday night's game were the most the River Cats have totaled in a single game since April 15, 2018 when the staff walked 11 opposing batters.

This Day in River Cats History: August 23, 2011: The River Cats clinched their 10th division title in 12 seasons with a 15-2 victory over the Tucson Padres. They became the first team in major American professional sports (MLB, NHL, NBA, and NFL) to clinch 10 division titles in this century with the win. Sacramento recorded 17 hits in the win, including eight extra-base hits. **RHP Travis Banwart** pitched a beauty for the River Cats, tossing seven solid innings of two-run ball with four hits, two runs, a walk, and four strikeouts.

RHP Shaun Anderson (1-2, 4.33)

- Acquired on July 26, 2017 in the deal that sent INF Eduardo Nunez from the Giants to the Red Sox
- Taken by Boston in the 3rd round of the 2016 draft out of the University of Florida
- Assigned to Double-A to begin the season, where he struck out hitters at a 23.7% clip in nearly 100 innings

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
