

January 2018

Community Outreach

- On January 18th, four staff members attended the Angel of the Winds Client Appreciation Dinner. This dinner was to not only thank patrons for their support in the past year, but also an opportunity to show their new services they will be offering the upcoming year. Angel of the Winds had previously been called Xfinity Arena, and this evening was the first glimpse in showing-off their new brand!

- On January 24th, three staff members attended the Mariner's Caravan stop in Bellingham, WA. We shared space with the Bellingham Belles as well as the Seattle Mariners. More than 50 fans were in attendance. We were able to have all three mascots together for the kids to enjoy! The players involved did a great job of interacting with the crowd and answering as many

questions as they could. Each fan had the opportunity to meet and greet with the players and get their gear signed!

- Also on January 24th, Webby stopped in at a local sports memorabilia shop in Bellingham! The owners are long-time AquaSox Fan's and love having Webby come-by whenever he is in town.

- Unfortunately, there was a great loss within the Washington State community. Sadly, we learned about the passing of their senior quarterback, Tyler Hilinski. In support of their family, fans and community members near and far came to sign a flag that would be sent to Pullman in his honor. Pat Dillion attended the flag signing on January 26th.
