Game 99 • Road Game 50

SACRAMENTO RIVER CATS (42-56) 4th Pacific Northern

- vs -

EL PASO CHIHUAHUAS (52-46) 1st Pacific Southern

River Cats: RHP Chris Stratton (0-0, 9.00) • Chihuahuas: RHP Walker Lockett (3-8, 5.20)

Yesterday's Game: The River Cats took a 6-3 lead into the bottom of the eighth inning, but a grand slam against LHP Josh Osich allowed the Grizzlies to take a late lead. The River Cats would tie it in the ninth to force extras, but Fresno walked off on a sac fly to center field in the tenth. RHP Shaun Anderson made his Triple-A debut on Thursday, going five innings and allowing two runs on four hits and three walks, while striking out six. OF Mac Williamson had another big game, going 3-for-4 with a two-run homer, a double, and four batted in. INF Miguel Gomez also hit his first home run as a River Cat, adding to the early lead in the fifth inning. After an excellent last week, the River Cats' bullpen let them down in this one, allowing a total of six runs (five earned) in 4.2 innings.

Today's Starter: RHP Chris Stratton (0-0, 9.00) takes the hill for Sacramento for the second time this season. His last outing on Sunday did not go as planned, as the right-hander went five innings and allowed five runs on nine hits. He also walked two and struck out four in the game. Stratton was solid for the San Francisco Giants in the early part of the season, but was sent down as a result of injured players returning and the success of rookies RHP Derek Rodriguez and LHP Andrew Suarez. Stratton was 8-6 with a 4.93 ERA in 96.2 innings with San Francisco.

Anderson Has Arrived: RHP Shaun Anderson joined the San Francisco Giants organization last year in a trade which sent INF Eduardo Nunez to the Boston Red Sox. He quickly joined the organizational ranks as one of the top prospects in the system, and has proven his mettle in both San Jose and Richmond. Anderson struck out six batter in five innings in his Triple-A debut, but also walked a season-high three on Thursday night. The righty threw 93 pitches (59 for strikes).

Longo with River Cats: INF Evan Longoria is expected to join the River Cats tonight in El Paso as he rehabs a fractured left metacarpal which he suffered on June 14. It is thought that he will need at least a week of minor league games to get back up to speed before his activation. Before his injury, Longoria was hitting .246 with 10 home runs and 34 RBI in 67 games with San Francisco. He came over in a trade last offseason from the Tampa Bay Rays.

Personnel Matters: INF Ryder Jones was recalled by San Francisco to fill in for INF Brandon Belt, who was placed on paternity leave today. Also, RHP Tyler Herb was reinstated from the Sacramento Disabled List, and is projected to be the starting pitcher for Saturday night's game in El Paso. To make room for Herb, LHP Daniel Camarena was transferred to Double-A Richmond.

El Paso Puzzle: The River Cats open a three game series against the El Paso Chihuahuas, who lead the Pacific Southern Division by one game over the Salt Lake Bees. El Paso has won the last five meetings between the two teams, including a four-game sweep at Raley Field in June. The Chihuahuas, however, are just 19-30 at home this season, compared to 23-15 on the road. The River Cats split a four-game set on the Chihuahuas turf earlier in the year. Sacramento is 23-32 all-time against El Paso.

This Day in River Cats History: July 20, 2010: The River Cats knocked off host Colorado Springs 11-7 in a rain-shortened, six-inning game...in the third, a walk from OF Chris Carter loaded the bases for INF Josh Donaldson's grand slam that gave Sacramento a 7-4 lead...the home run was Donaldson's 15th of the season and third in four games...Jeff Baisley's bases-clearing double gave Sacramento a 10-4 lead in the fifth before Carter put the River Cats ahead 11-4 with his sixth-inning double.

Tomorrow's Starting Pitcher

RHP Tyler Herb (1-1, 5.59)

- Joined Giants' farm system after becoming the "player to be named later" in the Chris Heston trade to Seattle
- Threw his first career nine-inning complete game on August 21, 2017 against Erie, striking out five and allowing just six baserunners
- Originally drafted by the Mariners (29th round) in 2014

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
