Southwest University Park
El Paso, TX • 6:05 p.m (PT)
Game 100 • Road Game 51

SACRAMENTO RIVER CATS (43-56) 4th Pacific Northern

- vs -

EL PASO CHIHUAHUAS (52-47) T-1st Pacific Southern

River Cats: RHP Tyler Herb (1-1, 5.59) • Chihuahuas: RHP Brett Kennedy (8-0, 2.65)

Yesterday's Game: The River Cats held on for a 6-5 win last night in game one of their three-game set with the Chihuahuas. The eighth inning almost burned them for the second straight night, however, as they took a 6-2 lead into that inning and emerged leading by just one. Giants' **INF Evan Longoria** began a minor league rehab assignment, and played five innings at third base and got three plate appearances. He finished the night 2-for-3 with an RBI-double and a run scored. **OF Chris Shaw** launched his 19th homer of the season in third inning. **INF Jerry Sands** had another multi-hit game, going 2-for-4 with an RBI and a run scored. **RHP Chris Stratton** earned his first win of the season with an excellent start on Friday, going six innings and allowing two runs (one earned) on six hits and three walks while striking out 10 Chihuahuas hitters. **RHP Tyler Rogers** held on in the ninth to earn his first save of the season.

Today's Starter: RHP Tyler Herb (1-1, 5.59) returns to the River Cats' rotation after missing 80 games on the disabled list (since April 25). Before his injury, the 26-year old had made four starts with Sacramento, going 1-1 with a 5.59 ERA in 19.1 innings. The right-hander was acquired from the Seattle Mariners in a trade in July of last year, and finished last season with Double-A Richmond going 2-3 with a 2.76 ERA in 65.1 innings with a 48/18 K/BB ratio. Herb was originally drafted by the Mariners in the 29th round of the 2014 First Year Player Draft out of Coastal Carolina University.

Ryder Short Trip To Bigs: INF Ryder Jones was recalled by San Francisco yesterday to fill in for INF Brandon Belt who was placed on the paternity list. While Jones did strike out three times in Friday's win against the Oakland Athletics, he also blasted a towering solo home run which hit the foul pole down the right field line. His call-up was short-lived, however, as the young infielder was optioned back to Sacramento following the game with Belt being reinstated for Saturday's game.

Friendly Confines of SW University Park: With last night's win, the River Cats are now 4-2 against the Chihuahuas on the road this season compared to 0-4 at home. The Chihuahuas have struggled at home overall this season, going just 19-31 at Southwest University Park.

Jerry Sands - Hit Machine: In the first nine games since his promotion from Double-A Richmond, INF Jerry Sands has done nothing but hit the ball. The 30-year old former top prospect has hit in eight of the nine games he's played, and has five multi-hit games. He is currently hitting .389 with an OPS of 1.075 with 2 home runs and 5 RBI.

Shaw Power: There's no doubting OF Chris Shaw's raw power. He blasted his 19th home run on Friday, which leads the team. Last year, Shaw hit 18 home runs with Sacramento in 360 plate appearances, with 50 RBI. This year, in just 313 plate appearances, he has already hit his 19th and he has 54 RBI. While his power numbers are up this season, his K% is the highest its been in his career (35.6%) and his BB% is the lowest its ever been (5.1%).

This Day in River Cats History: July 21, 2010: OF Chris Carter hit a home run in his third consecutive game to highlight the River Cats' 8-1 win over Colorado Springs. Sacramento put up five runs in the fifth inning to get on the board first...it was a Carter two-run homer that gave the River Cats a 5-0 advantage. Carter ended his day only going 1-for-4, but the home run helped solidify Sacramento's lead. RHP Tyson Ross did not allow a run, striking out seven on the way to his first win of the season.

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
