Saturday, August 25

Raley Field

West Sacramento, CA • 7:05 p.m. (PT)

Game 131 • Home Game 65

LAS VEGAS 51s (63-67) 3rd Pacific Southern

- vs -

SACRAMENTO RIVER CATS (51-79) 4th Pacific Northern

51s: RHP Kevin McGowan (4-2, 4.44) • River Cats: RHP Mike Connolly (0-2, 4.97)

Yesterday's Game: The River Cats shut out the Las Vegas 51s on the back of starting pitcher RHP Shaun Anderson, who dazzled in seven innings allowing just four singles, no walks, and striking out seven. Reliever RHP Derek Law was stellar, as well, striking out five of the seven batters he faced and allowing just one baserunner — a single. The River Cats gave Anderson a nice cushion in the fourth inning as they put three runs up on the board for the eventual 4-0 victory. RBI in the inning came from OF Myles Schroder's double, C Aramis Garcia's single, and INF Orlando Calixte's single.

Today's Starter: RHP Mike Connolly will take the ball for the second time since returning to Sacramento from Double-A Richmond. Last week in Albuquerque, he gave up five runs on nine hits, including two home runs. It will be Connolly's first time facing Vegas this season. While in Richmond, Connolly made five starts totalling 23.1 innings with a 6.94 ERA, though he did finish his stint there with a six-inning, one-run performance.

Zeroes for 51s: Friday night's shutout was the second in a row for the 51s at the hands of the River Cats. Sacramento had last faced Las Vegas back on May 29 where they finished out a four-game series with a 1-0 blanking of the 51s.

Home Cooking: All five shutouts this season from the River Cats have come at Raley Field. They've been blanked by the opponent nine times — three at home and six on the road.

No Extra Bases: That same game on May 29 against Las Vegas was also the last time in which the River Cats had finished a ballgame without allowing an extra base hit.

Around the Plate: With no walks issued by the River Cats pitching staff, Sacramento was able to hold the 51s to just four baserunners the entire game. It was the first such occurrence since July 1 that the staff had failed to walk the opposition.

Two Bags for Kelby: INF Kelby Tomlinson doubled in the third inning for his first extra-base hit of the season. Prior to it, he had recorded 42 hits, all of which were singles.

This Day in River Cats History: August 25, 2014: The River Cats annihilated the Nashville Sounds by a final score of 20-1. Sacramento tied a franchise record for largest margin of victory, a mark that had only been reached one other time. They racked up 24 total hits and went 12-for-25 with runners in scoring position as INF Alden Carrithers and OF Nick Buss each had four-hit games while DH Daric Barton had four RBI. Of the 24 total hits, three of them were doubles with just one home run. RHP Zach Neal picked up his seventh win, going seven innings while allowing just one unearned run.

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
