Isotopes Park

Albuquerque, NM • 5:35 p.m (PT)

Game 123 • Road Game 63

SACRAMENTO RIVER CATS (49-73) 4th Pacific Northern

- vs -

ALBUQUERQUE ISOTOPES (56-66) 4th Pacific Southern

River Cats: RHP Jordan Johnson (0-6, 6.21) • Isotopes: LHP Sam Howard (3-6, 5.21)

Yesterday's Game: The River Cats got a big hit late from INF Miguel Gomez which pushed across three runs in the 1th inning and proved to be the game winner. Sacramento beat the Reno Aces by a score of 8-5 on Wednesday, winning their seventh series of the year overall and splitting the season series with the Aces (4-4). LHP Daniel Camarena was solid on the mound, tossing five innings and allowing three runs on five hits. However, he was again denied his first win since joining the River Cats as he settled for the no decision. Five Sacramento hitters picked up multi-hit games, including C Aramis Garcia, who picked up his first three career Triple-A hits. RHP Roberto Gomez picked up his second save by slamming the door in the bottom of the 11th.

Tonight's Starter: RHP Jordan Johnson (0-6, 6.21) will toe the rubber for the River Cats as the current road trip shifts to Albuquerque. Johnson has been much improved in his last three starts, but does not have a win to show for it. He is 0-3 his last three times out with a 3.63 ERA in 17.1 innings. He still has had trouble with walks, issuing an incredible 24 free passes in 33.1 innings this season compared to 25 strikeouts. He'll face an Isotopes offense tonight which has the second ranked offense in the league in terms of runs (683) and batting average (.289).

Extras: The River Cats picked up their first extra-inning victory on the road this season after losing their first two. They are 3-0 at home in extra innings this season for an overall record of 4-2. Their six games with #freebaseball rank around the middle of the Pacific Coast League, but everyone is looking up at New Orleans and their 16 total games which have gone to extra frames...that is 13% of their games.

Aramis Off the Snide: C Aramis Garcia snapped an 0-for-12 start to his Sacramento tenure when he ripped a double in the second inning against Reno last night. He finished the night going 3-for-4 with two runs scored and an RBI sac-fly. The 25-year old catcher is currently ranked as the 16th overall prospect by MLB.com. He was promoted to Triple-A Sacramento on August 6 after 80 games with Double-A Richmond this season.

Bring on ABQ: Sacramento flew this morning to New Mexico to face off against the Albuquerque Isotopes in a four-game set. They are 4-5 against the 'Topes so far this season, and still have seven games remaining against them. Playing in an offense-friendly park at altitude, it is no surprise that Albuquerque ranks near the top in nearly every offensive category and near the bottom in many pitching categories. The River Cats are 61-42 against the Isotopes all-time.

This Day in River Cats History: August 16, 2011: Sacramento starter Graham Godfrey won his 12th game of the season as Sacramento topped Albuquerque 7-3...Godfrey allowed four hits and two runs in his 6.0 innings while striking out seven...INF Adam Rosales solidified the River Cats' lead with a line drive to left field that scored INF Chris Carter and put the score at 4-0 going into the second...Rosales went 3-for-4 with 1 RBI...OF Adrian Cardenas went 4-for-5 with 1 RBI...INF Andy LaRoche extended his hitting streak to 12 games after doubling in the fifth inning.

RHP Shaun Anderson (1-2, 4.30)

- Acquired on July 26, 2017 in the deal that sent INF Eduardo Nunez from the Giants to the Red Sox
- Taken by Boston in the 3rd round of the 2016 draft out of the University of Florida
- Assigned to Double-A to begin the season, where he struck out hitters at a 23.7% clip in nearly 100 innings

*ADVANCED HITTING STATS GLOSSARY

PA: Plate Appearances

Plate Appearances are the total number of times a hitter completes a turn batting.

OPS: On-Base Plus Slugging

On-base Plus Slugging (OPS) is the sum of a player's on-base percentage (how often a player reaches base safely) and their slugging percentage (how many bases a player reaches per at bat).

ISO: Isolated Power

Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hitter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.

wRC+: Weighted Runs Created Plus

Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.

wOBA: Weighted On-Base Average

Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

ADVANCED PITCHING STATS GLOSSARY*

TBF: Total Batters Faced

Total Batters Faced measures the total number of plate appearances hitters have made against him.

AVG: Batting Average

Batting average is the rate of hits per at bat, calculated as hits/at bats.

BABIP: Batting Average on Balls In Play

Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.

LOB%: Left On Base Percentage

Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.

FIP: Fielding Independent Pitching

Fielding Independent Pitching (FIP) measures what a player's ERA should have looked like over a given time period, assuming that performance on balls in play and timing were league average. (Due to no constant in minor league baseball, the FIP statistic is approximate).

K% & BB%: Strikeout Rate and Walk Rate

Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.

xFIP: Expected Fielding Independent Pitching

Same as FIP, but it normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed.
